

As a young man, Peter Barret's interest in art was put on hold during his working years. However, in his retirement, he has set up a studio and once again picked up his brushes, along with his interest.

Peter Works in oils and his preferred subject matter is landscapes, although he occasionally experiments with other subject matter, for example the 'Street Scene' which we have on this auction.

Living with his wife, Lorrain, in Knysna, Peter sells his brilliant work at local art markets and through personal contacts.
